EXPERIENCE

QA/TEAM LEADER

03.2020-06.2020

Participated in the student project "Library Nuos". In the team, I held the positions of QA and Team Leader. Testing was manual and team management was fun: D. Kotlin project language.

FULL STACK

02.2021-06.2021

Developed the "PBike" application myself. This is an android application. I was engaged in design and scripting, I used the Firebase database. This app is designed to make public bike rental easier. Java project language.

EDUCATION

BACHELOR OF SCIENCE DEGREE

09.2019-06.2023

In 2019 I entered the National University of Shipbuilding with a degree in Software Engineering. In my first year, I studied the C ++ programming language. The android application “Nuos Library” was developed in the student project. In the second year of study, we studied OOP, SQL, Java. I wrote an android application "PBike" myself.
